Level 1A Thursday

The difference between level 1B and 1A:

Both 1B and 1A are meant for any beginning ballet student who is age 7-9. Dancers ages 7-9 begin developing fine motor control and may begin formal ballet training.

Dancers are encouraged to take level 1B, as either a continuation from Pre-Ballet B, OR any new student age 7-9 ready to dive into practice and the joy of dance. Dancers in 1B progress faster because they take two ballet classes each week, one Modern/Contemporary/Lyrical class, and a performance class. They also have more roles in performances, usually 2-4+, depending on the ballet and student interest.

Dancers in 1A take one ballet class and performance/repertoire class a week and have 1-2 roles in performances.
